

Your members are your next trainers.

A white-label PT academy for your gym. Your members qualify under your brand, come out as trainers who already know your floor, and you are paid £500 for each one who enrolls.

PT Launch Lab Ltd · Pontefract
ptlaunchlab.co.uk/gym-partnership

The problem this solves

Most independent gyms lose good trainers to other clubs, struggle to replace them quickly, and carry empty floor space while they look. Hiring is reactive: you only start when someone leaves, and you are dependent on the right person happening to be on the market that month.

Meanwhile you already have members who would like to work in the industry and have no idea how to start. Most of them go elsewhere to qualify, and then work elsewhere too.

How it works

1. Your branded academy

Your logo, your own enrolment link and a QR code for the gym. Members scan, enrol and qualify under your brand.

2. We deliver all of it

Tutoring, assessment, certification and learner support. NCFE Level 2 and Level 3, Ofqual regulated, CIMSPA recognised. You teach nothing.

3. You are paid

£500 for every member who enrolls through your academy.

4. They stay on your floor

A trainer who qualified in your gym, with your members, is far likelier to rent space from you than someone who answered an advert.

What it costs you: nothing. No fee, no minimum, no tie-in, and either side can end it on 30 days' written notice.

What it is worth

£500 per learner, so the arithmetic is easy. Put your own number in:

MEMBERS ENROLLING	OVER A YEAR
One a month	£6,000
Three a month	£18,000
Five a month	£30,000

Illustration of the fee at different volumes, not a forecast of what your gym will do. What you actually enrol depends on your membership and how often you mention it.

And the fee is the smaller half. Every member you help qualify is a trainer who already knows your gym and is likely to build their business on your floor rather than someone else's, paying rent and bringing their own clients through your door.

Where the programme is now: 9 gyms are running an academy with us, and the strongest has had 3 of its members enrol since May. It is a young programme. The gyms getting results are simply the ones that mention it when a member asks, and on the call we will show you exactly what they do.

The commercial terms

Reproduced from the partnership agreement v3.0. These are the terms you would sign, not a summary written for a brochure.

CLAUSE 5

£500 per learner, inclusive of VAT

You are paid £500 for each learner who enrolls through your gym. That figure is inclusive of VAT — nothing is added on top.

CLAUSE 5.4

When the money is released

If the learner pays in full, commission is paid 30 days after enrolment. If they are on an instalment plan, it is held until their second instalment clears, then paid 30 days after that. You can see accrued and released commission in the partner portal at any time.

CLAUSES 5.8-5.9

Clawback on refunds and chargebacks

If a learner is refunded, cancels, or their payment is reversed after you have been paid, the commission on that enrolment is repayable. We normally recover it by offsetting against your next commission.

CLAUSE 14

Learner non-solicitation

During the partnership and for 6 months after it ends, you agree not to sell competing PT education or certification to learners we introduced. This does not stop you employing them, renting them floor space, or running your own gym however you like.

On territory

We aim to work with one gym per area, and we will tell you honestly whether anyone near you is already set up. That is how we intend to run it, not a right granted by the agreement, and we would rather say so than have you find out later.

Next step: a fifteen minute call. If your gym is not a fit we will say so.
